Goals of the document

This document is a technical reference intended for programmers and IT managers of employers regulated by the "Decree respecting the automotive services industry in the Athabaska, Thetford Mines, Granby and Sherbrooke regions".

This document describes the XML standard specifications as required by the Eastern Townships CPA for the transfer of XML files through their website www.cpaestrie.qc.ca.

Employers who wish to register for this XML file transfer service should contact us by phone at 819-566-0616, or toll-free at 1-800-667-1083.

Definitions of terms used throughout this document

(FRENCH TERM BETWEEN PARENTHESIS. NDT)

CPA The Joint committee of the automotive services industry in the

Eastern Townships

Decree Decree respecting the automotive services industry in the

Athabaska, Thetford Mines, Granby and Sherbrooke regions (décret)

Establishment Garage, business enterprise, branch or any other institution

registered with the CPA and regulated by the decree

(établissement)

Subject worker Workers of an establishment regulated by the decree or who carry

out works regulated by the decree (assujetti)

Artisan Person working on his own account alone or in parthnership and

who performs work governed by the Decree for others (artisan)

Tag Name of an expression delimited by a "<" and a ">". A tag is

comprised of two sections: a starting section (e.g. : <Prenom>) + an ending section (e.g. : </Prenom). Other information or tags can be

found between these sections (balise).

Node A tag which contains other tags (*node*)

Attribute One or several parameters of a node (attribut)

General specifications

• XML file encoding: UTF-8

 Only one monthly report must be included with the XML file. The combination "Folio" + "Periode" must appear only one time in a file. For the transmission of several "Folio" and/or "Periode", many files must be created.

Data types in a tag :

Alphabetical: String of alphabetic characters only, independent of the

case used.

· Alphanumerical: String of alphanumerical characters, independent of the

case used.

Numerical: Integer or decimal number which may be negative.

Accepted formats are: 999 | -999 | 999- | 999 999,99 |

999,999.99 | -999 999,99 | 999,999.99-

Date: Accepted formats are: YYYY-MM-DD | YY-MM-DD | Null

or an empty string

An empty tag is interpreted according to the data type expected:

Alphabetical: Empty string
 Alphanumerical: Empty string
 Numerical: Zero (0)

Date: NULL date (no date)

- An empty tag may be written as follows: <Courriel/> or <Courriel></Courriel>
- Some tags require an explicit content, a character or a code from a list. They will be detailed in the description of the tags.
- Tags not covered in this document will be ignored.
- Mandatory tags omitted are considered as Empty, NULL or Zero depending on the data type expected.
- The term "Mandatory" or "Optional" in the description of tags and attributes indicate whether a "tag" (and not a "data") is mandatory or optional. Example: the tag <Courriel> is mandatory, but the data may be empty. To know if a data can be empty, verify its format.

Node < Rapport Mensuel >

The tag <RapportMensuel> contains all of the Monthly Report Statement and must appear only one time in the XML file. It contains two mandatory attributes: "Folio" (the number of the establishment) and "Periode" (year and month of the report). For the transmitting of several "Folio" and "Periode", many files must be created and transmitted.

Example

Attributes								
Name	Format Description							
Folio	####9 MANDATORY. Number of the establishment –							
	Box 2 of the monthly report.							
Periode	YYMM, YY-MM,	MANDATORY. Reporting year and month –						
	YYYYMM or	Box 1 of the monthly report.						
	YYYY-MM							

Tags		
Name	Format	Description
Salarie	Node	Information related to the subject worker. See section Node <salarie> later in this document.</salarie>
PercuSalaries	-#####9.99	MANDATORY. Amount of levies from each subject worker – <i>Box 35 of the monthly report.</i>
PartEmployeur	-####9.99	Mandatory. Employer contribution – <i>Box 36</i> of the monthly report.
DebitCredit	-####9.99	Mandatory. Amount of debit or credit used – Box 38 of the monthly report.

Tags		
Name	Format	Description
Total	-####9.99	Mandatory. The total of the three aforementioned tags – <i>Box 39 of the monthly report</i>
Notes	Alphanumerical or	Ортіона . Various remarks made about the
	empty	report or the establishment.

Node <Salarie>

The tag <Salarie> contains all the data related to a subject worker and must appear for each subject worker of the establishment, as well as for the reference period. The craftsmen are excluded from this tag, as well as from the monthly report (XML format or others). The craftsmen are charged on a quarterly basis without the monthly report being used.

	empty	worker has no declared week for each
		week of the reference month.
NotesHeuresNegatives	Alphanumerical or	OPTIONAL. Reason why the subject
	empty	worker has hours or amounts in
		negative in the reference month.
SousPeriode	Node	Information related to the subject
		worker weeks of work. See Node
		section <sousperiode> later in this</sousperiode>
		document.

Node <SousPeriode>

The tag <SousPeriode> contains all the data related to the week of work of the subject worker. It includes only one mandatory attribute "FinissantLe" which identifies the last day of the current payroll. This tag must appear for each week of the reference period. Two tags <SousPeriode> may represent the same week for a specific subject worker in the case of an increase of the hourly rate during the week, or a correction of the week.

Example

```
<SousPeriode FinissantLe="2015-09-05">
  <TauxHoraire>20,65</TauxHoraire>

XML File Transmission

The transmission of your XML report must be done only through our secured website: https://www.cpaestrie.qc.ca/rapportenligne/login.aspx.

Once logged, go to section "Rapports", select the desired period and upload your XML report.

Your report will be validated before transmitting it to CPA. The CPA website may ask you more information to complete its files.

XML File Validation

The XML structure, data typing and mandatory data of your report will be validated when the upload is attempted. More information may be asked before the transmission of your report to CPA.

Adjustment and amended report

Adjustments and amendments of a week already declared must be included in the next monthly report to be produced. You cannot produce just an amended report. It must be produced in the accounting form and not as replacement information.

You can write the amended data in two ways:

- Possibility #1: by reversing the faulty declaration in a first accounting entry and the good one in a second entry.
- Possibility #2: by adding or withdrawing the discrepancies between the declared week and the new declaration into only one accounting entry.

Example

Declared week							
Ending on	Ending on Rate Reg. hrs Hrs 50% Total Hrs Total Week						
2015-11-01 20,00 \$ 42,00 0,00 42,00 840,00 \$							

Potential amendment on the next report produced, Possibility #1

Week amended								
Ending on	Rate		Reg. hrs		Hrs 50%		Total Hrs	 Total Week
2015-11-01	20,00 \$		-42,00		0,00		-42,00	-840,00\$
2015-11-01	20,00 \$		40,00		2,00		42,00	860,00\$

Potential amendment on the next report produced, Possibility #2

Week amended									
Ending on	Rate	•••	Reg. hrs		Hrs 50%		Total Hrs	:	Total Week
2015-11-01	20,00 \$		-2,00		2,00		0,00		20,00\$
